

International Travel Decision Process

Information for Calculation of Taxability:

- The time spend outside the US exceeds one week
One week is defined as 7 consecutive days
Do not count the day you leave the US, but do count the day you return to the US, **AND**
- The total amount of time spent on non-business activity is more than 25% of the total time of the total time you spent outside the US
Count both the day the trip began and the day it ended

*Note:

This process is only helping to determine the taxability of transportation costs to and from your international location.

Any other costs, such as lodging and meals will be reviewed for allowability according to the business purpose provided.
